July 23, 2020

Dear Local Leader,

The National League of Cities (NLC) is pleased to announce our partnership with **SC Health**, a medical supply company specializing in distributing FDA and CE-registered personal protective equipment (PPE) and medical supplies directly to healthcare systems and government agencies.

Through this partnership, NLC members are offered a 10 percent introductory discount. **SC Health** provides the vital PPE and medical supplies needed to help municipalities continue to manage the COVID-19 pandemic in their community.

As infections and deaths from COVID-19 continue to surge in America's cities, towns and villages, residents expect local leaders to respond and provide the needed supplies to keep them safe and protected. This program provides a solution to the shortage of medical supplies many municipalities are facing in a time when leaders are seeking a qualified company to provide trusted PPE and medical gear.

"Thanks to SC Health's organization and products, the City of Columbia acquired expeditious and welcoming services that were embraced with quality and gratitude. SC Health's staff is complementary and their deliverance is phenomenal. We appreciate the opportunity to build a world class relationship with an outstanding organization."

- Wateka Smith, Safety Compliance Manager, City of Columbia

NLC is working to bring you programs that provide solutions backed by superior service. We are here to help your city thrive in response to this global pandemic. I strongly encourage you to consider SC Health as the PPE provider for your community's health care facilities. Please feel free to share with your team members that are responsible for coordinating the purchase of PPE and other medical supplies for the city.

For more information, on how to obtain **free PPE** please contact Josh Gray, Director of Strategic Partnerships at gray@nlc.org. To learn more about the program, visit the SC Health website at: <http://www.schealth.com/nlc/>

Sincerely,

Clarence E. Anthony
